Welcome.

While not a necessity, you may wish to brand your Power BI dashboard for your Trust or school. Dependent on the length of your file, you could even add hyperlinks to specific pages like so.

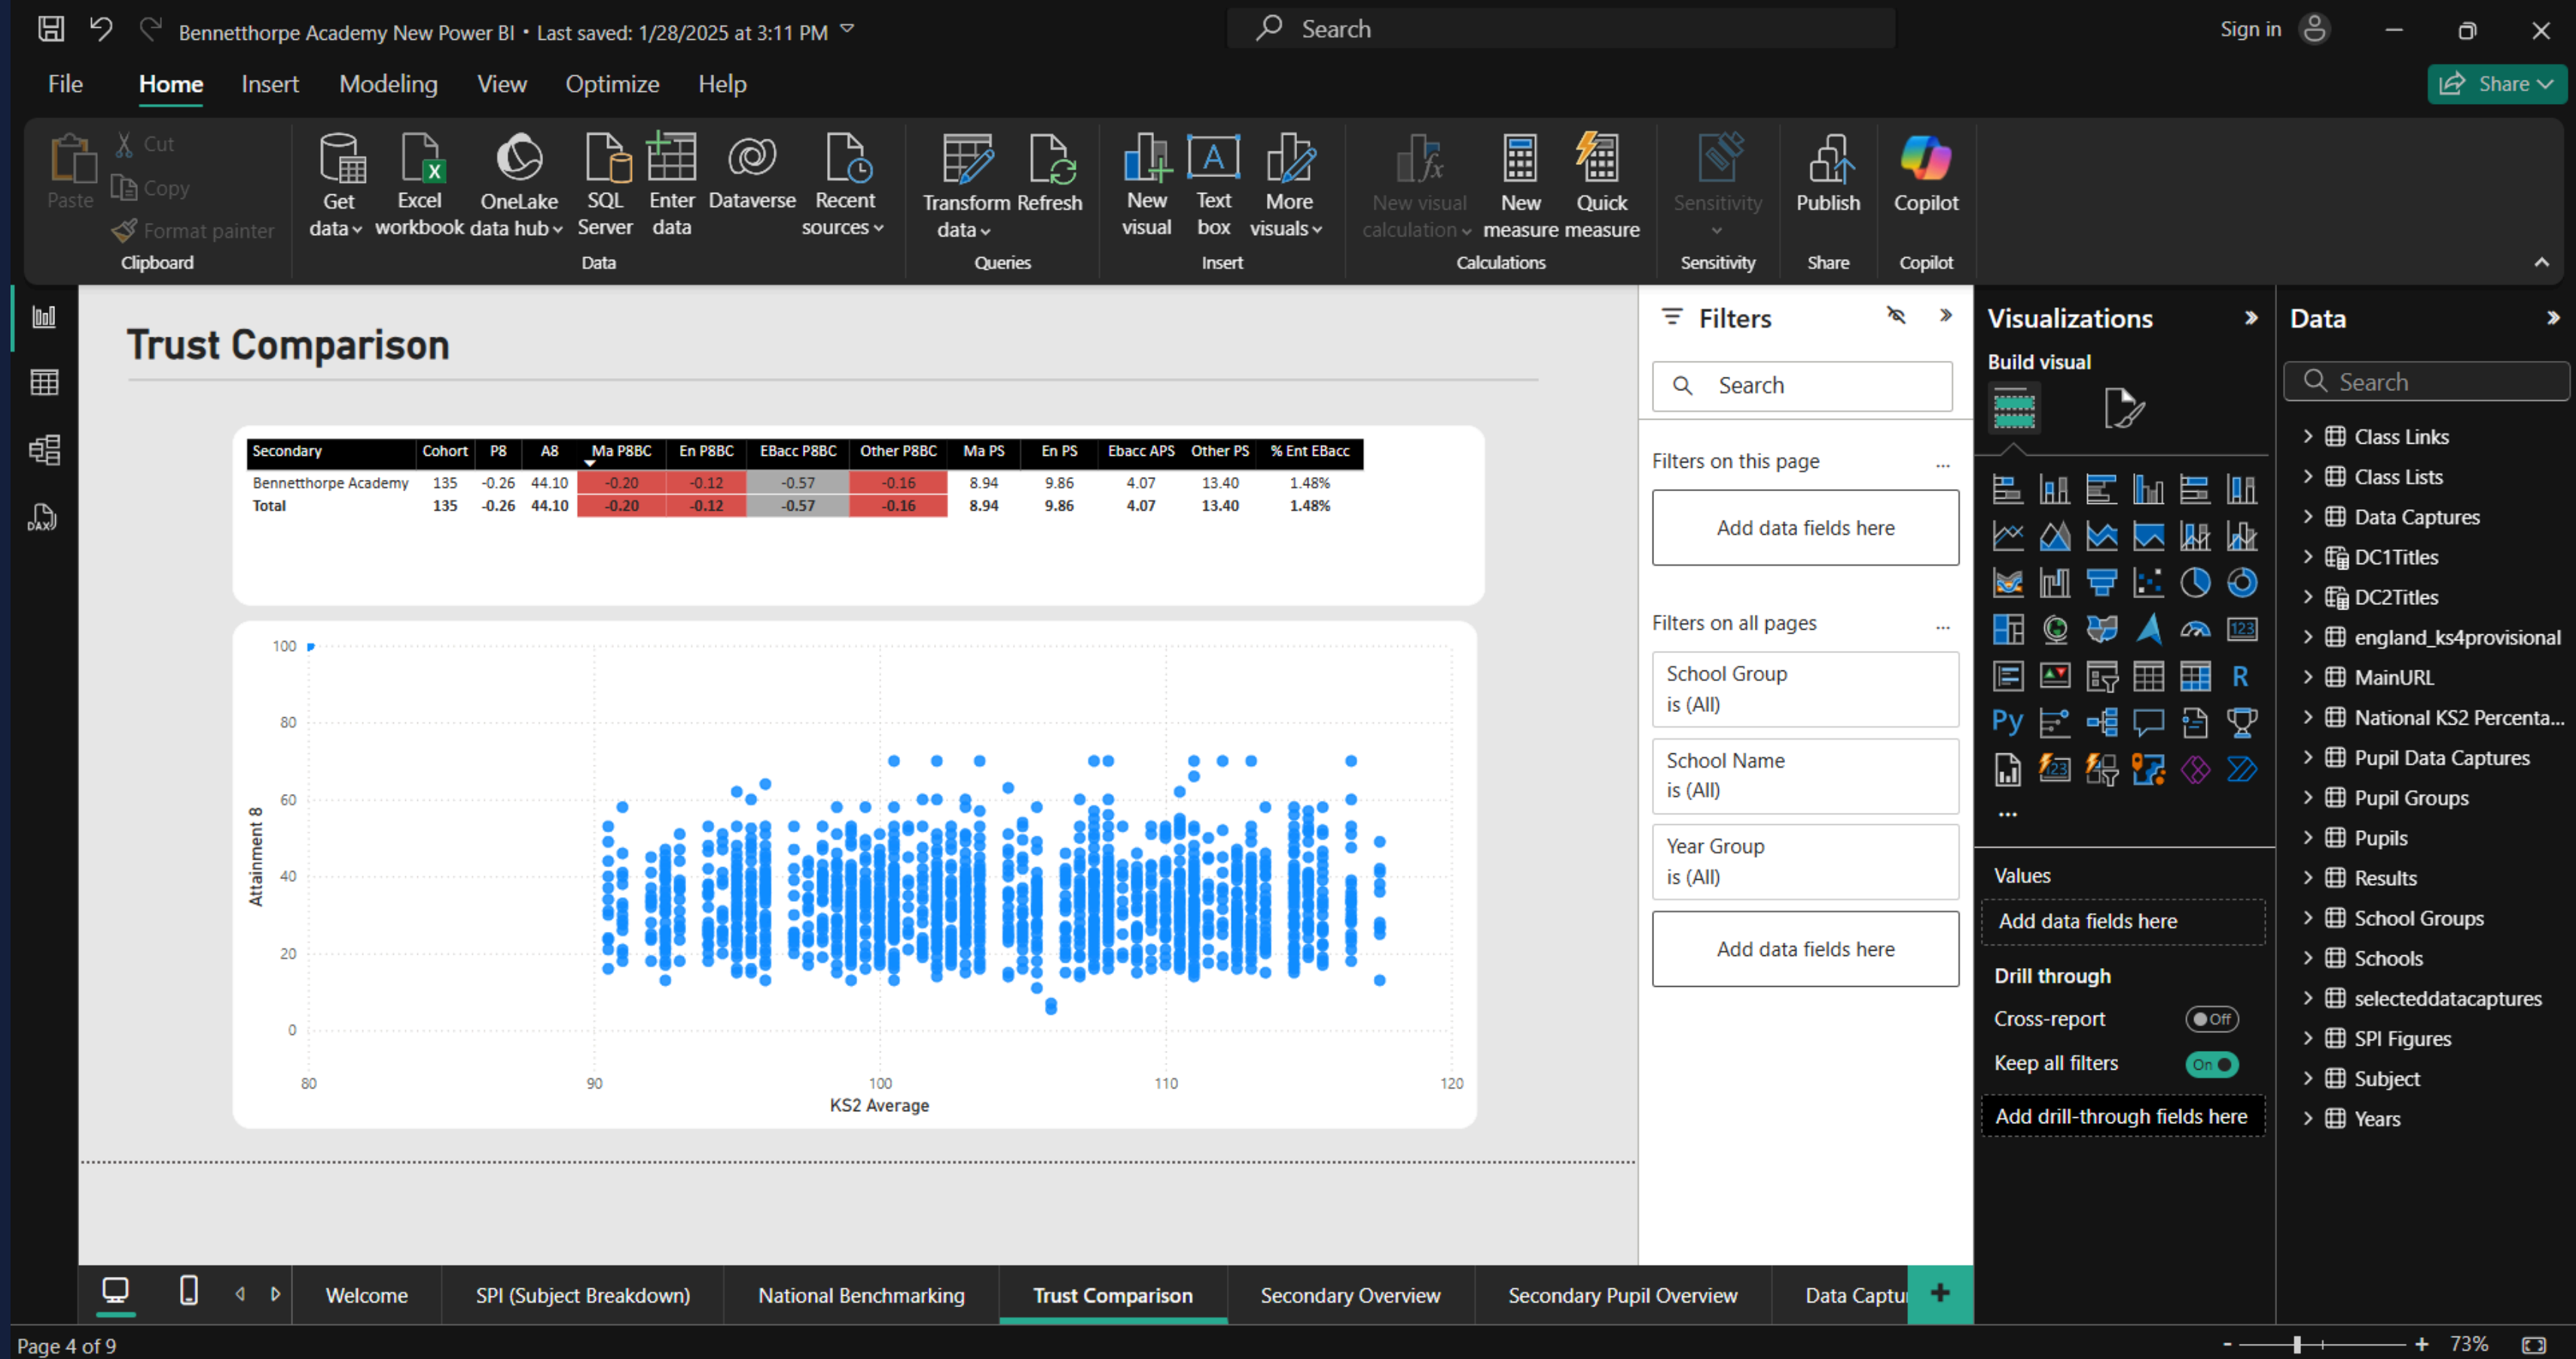

Subject Breakdown using SPI.

Choose your school, Data Capture and subject to drill down into your subject progress. Compare Point Score to Key Stage 2 average in an interactive graph.

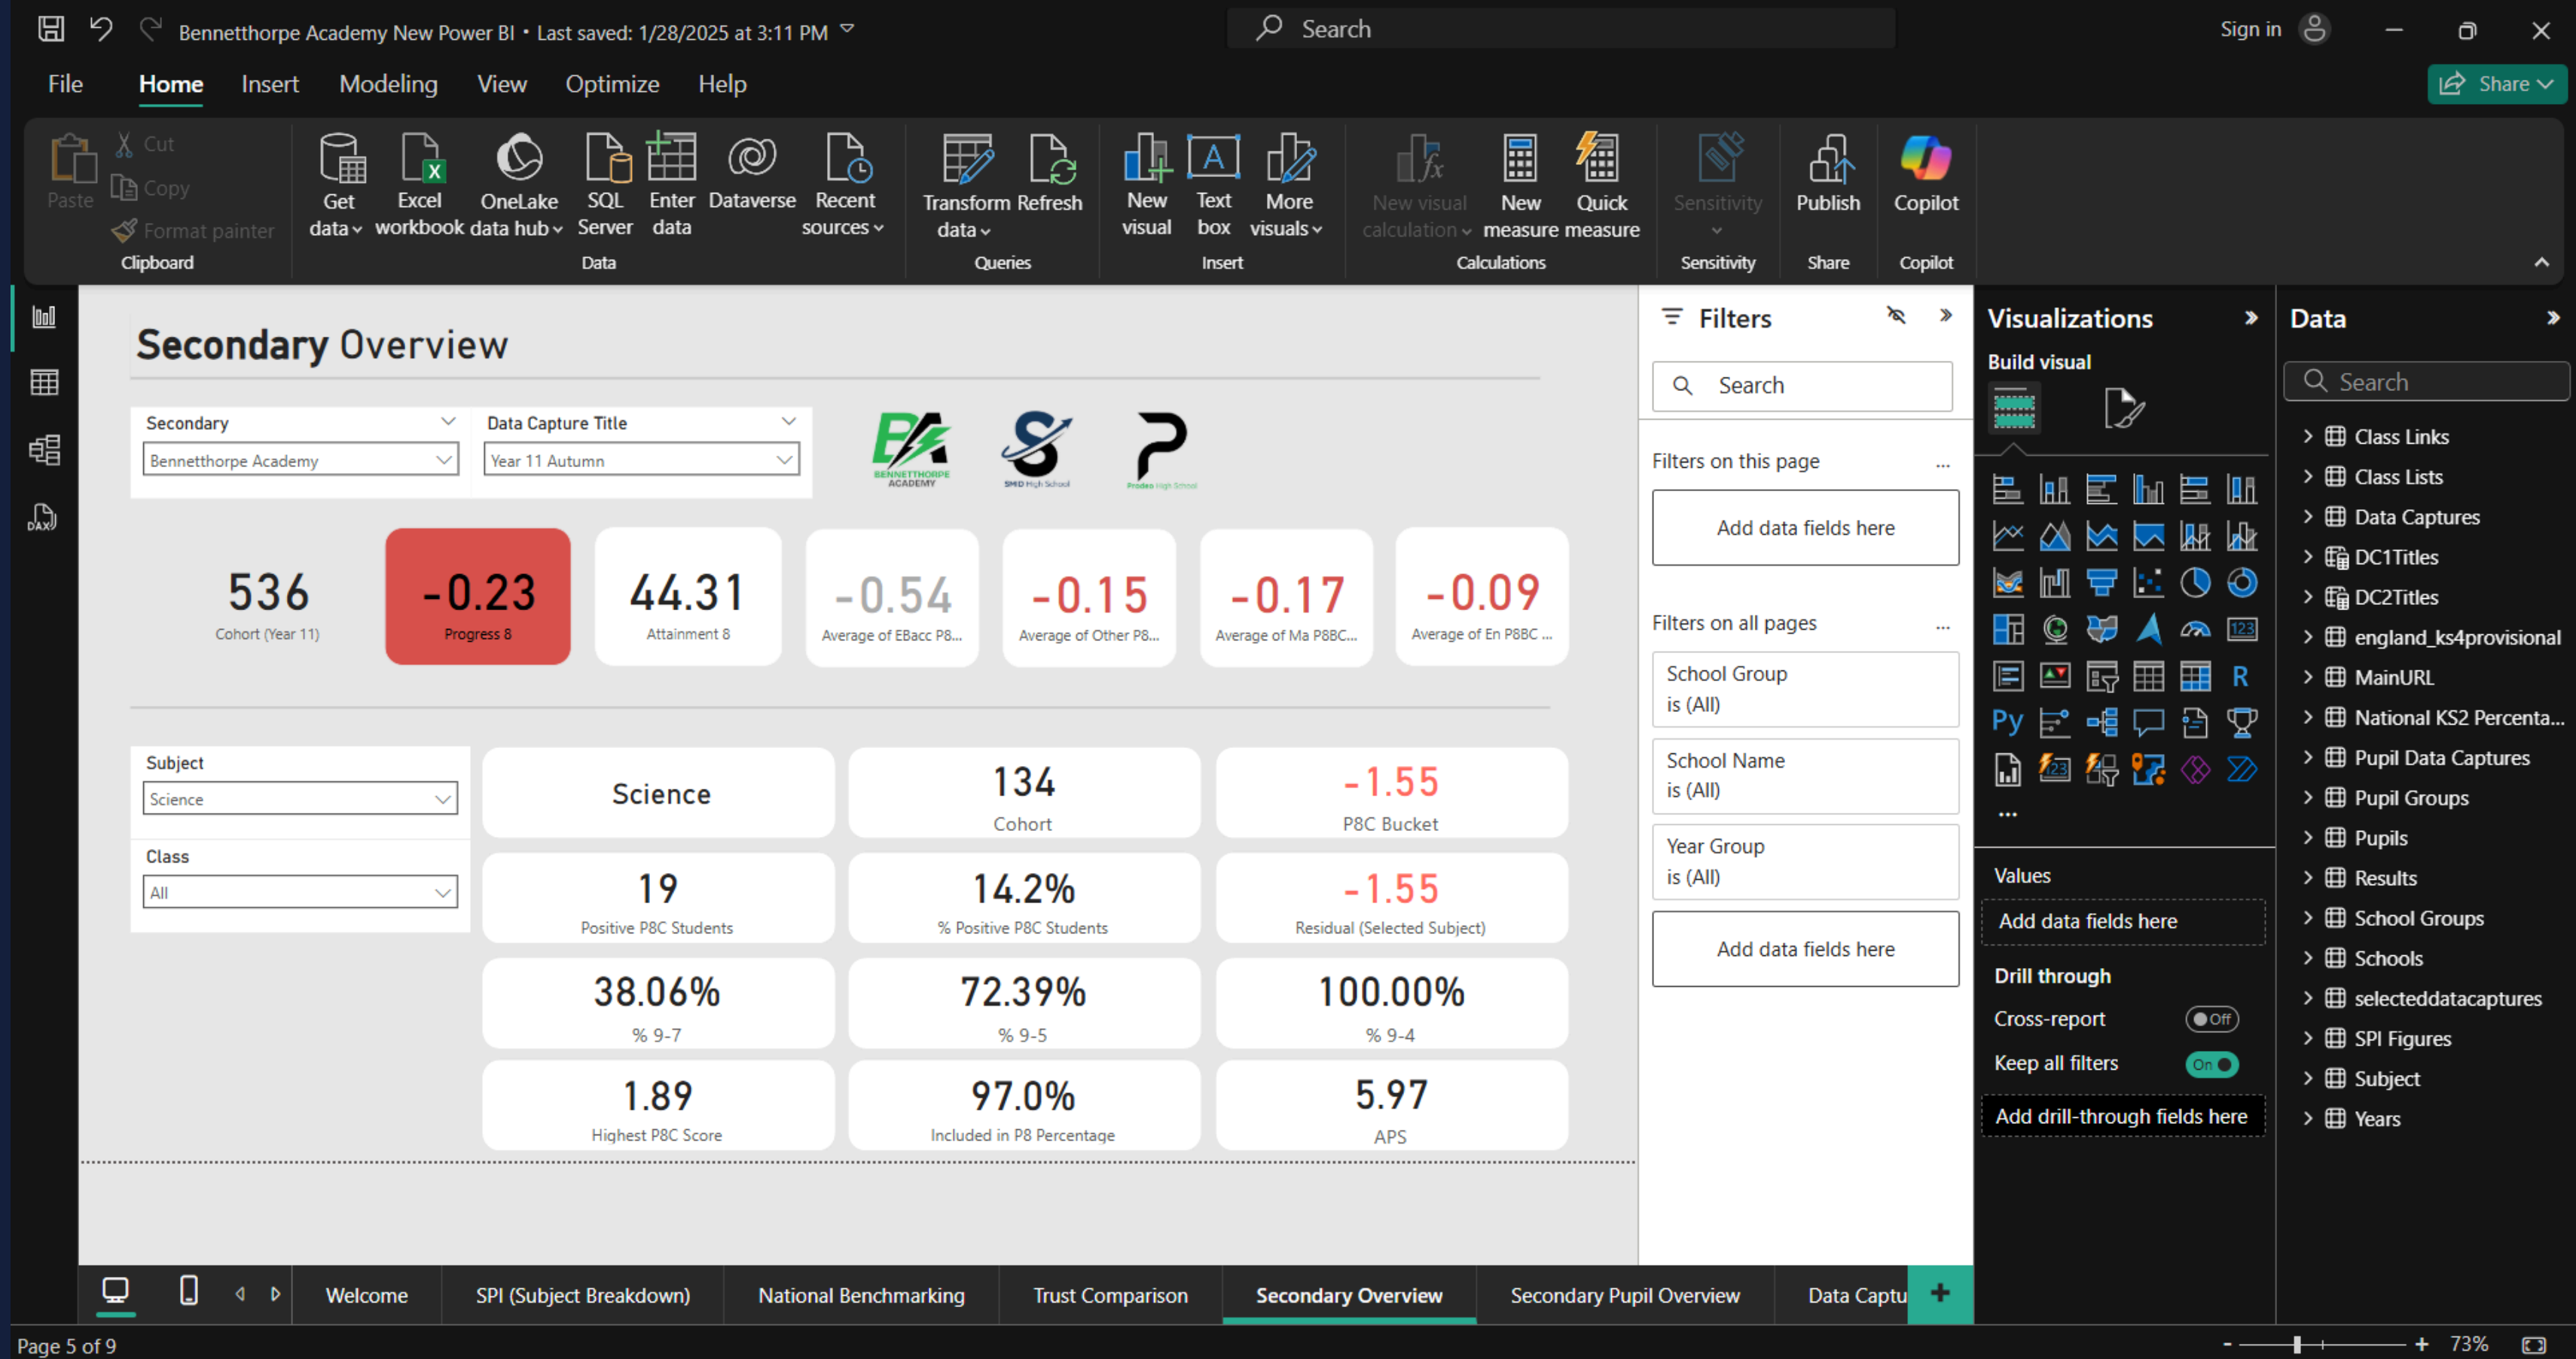

National Benchmarking.

Compare your school's measures against the national average. Make the comparison more personal by using the sliders on the left.

Trust Comparison.

A quick comparison of all the secondary schools in your trust. For our example, only Bennetthorpe Academy's data has been included, but all of your secondary schools would appear here.

Secondary Overview.

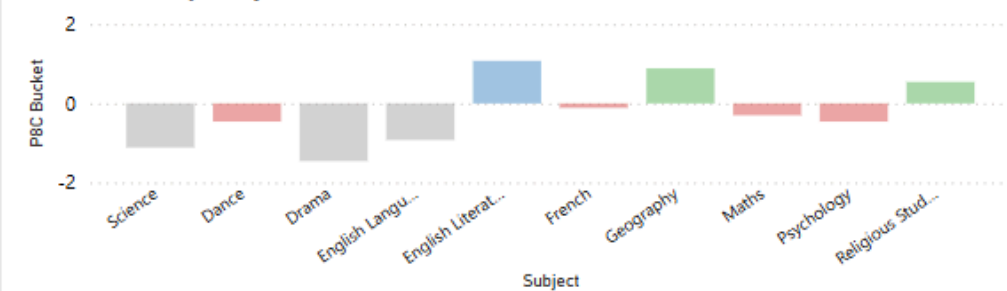

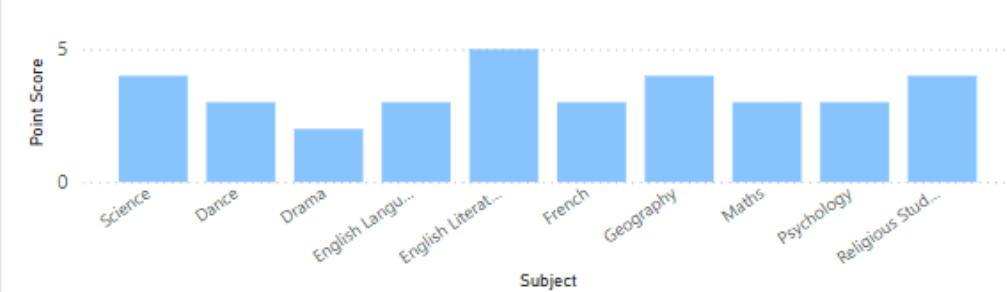

Generate averages for all data captures, plus a detailed subject breakdown below.

Secondary	Pupil Name	Data Capture Title
Bennetthorpe Academy	Adam Middleton	Year 11 Autumn
